Slow Network	N/A	N/A	Evaluated	Evaluated	Covered	Covered	Slow 3G tested
Broken Image Handling	N/A	N/A	Evaluated	Evaluated	Covered	N/A	Needs fallback image
Accessibility	Partial	Partial	Partial	N/A	N/A	N/A	Missing alt text
Browser Compatibility	Chrome	Edge	Safari	Partial Firefox	N/A	N/A	Cross-browser minimal

Legend

- Fully Covered
- Partial = Partially covered due to feature limitations
- Not Implemented (Feature not available in test version)
- N/A = Not applicable to this app type

Conclusion

Overall test coverage is **strong**, with all major functional and UX areas explored. Some areas are partially covered due to missing features (swipe, loader, fallback), which were documented and included in recommendations.

The coverage matrix demonstrates that the application was tested thoroughly across multiple dimensions, including functionality, usability, mobile responsiveness, and error handling.
